

Dear Parent or Guardian,

You are the first teacher and most important partner in your child's education. As a result, you need high-quality information on the performance of DCPS schools and the District overall. Inside, you'll find important facts related to **student performance, family and community engagement, safety, facilities, and more.**

Taken together, I believe these data can help you make the best, most informed decisions possible related to your child's education.

While the data on this scorecard provide you with the facts on the progress of this school, the best way to gauge a school's quality is to get involved. Please take a look at the back page for **ideas on engaging with your school community.**

You can compare schools' programs and performance online at www.dcps.dc.gov/profiles.

It is my hope that you use this information to hold principals, school staff, and my office accountable for continuing to improve the quality of education available to your family.

Sincerely,

Kaya Henderson

Garfield Prep is an inquiry-based and blended learning school. Our vision is to deliver a year-round, inquiry-based and blended

learning instructional model that is structured to develop rich content knowledge across all grade levels. As a result, our students will have the foundation needed to defy the rigors of college and excel in their future careers. We have a data-driven focus on fully integrating and coordinating resources and services to improve academic and socio-emotional outcomes for all students. Frequent and ongoing formative assessments help us determine the instructional approaches best suited to meet each student's needs. We work closely with our family and community partners to create a safe and orderly learning environment and to increase academic achievement for all students.

STUDENT PERFORMANCE

Results of annual, standardized assessments don't describe the full school experience, but they do provide the most accurate and reliable signal of student performance. Every DCPS school should demonstrate progress in the core areas of math and reading, as well as cultivate students and faculty focused on improving performance through outstanding teaching and learning.

		0	100	WHAT DOES THIS MEAN?
Student math performance	2011–12			The percentage of students achieving at each proficiency level on the District of Columbia's Comprehensive Assessment System (DC CAS or DC CAS Alt).
	2012–13			
	District Average			
Student reading performance	2011–12			
	2012–13			
	District Average			

STUDENT PROGRESS

Compared to student performance, which signals the share of students achieving at various levels, student progress is a measure of how much students grow from year to year. While some schools may have relatively few students meeting or exceeding state standards, it is important to gauge the extent to which those schools help students catch up.

		0	100	WHAT DOES THIS MEAN?
Student growth in math	2011–12			This score describes the percentage of students the median (middle) student outperforms who started with a similar level of prior achievement on the District of Columbia's Comprehensive Assessment System (DC CAS or DC CAS Alt). For example, a score of 70 means that this school's median student outperformed more than 70 percent of students in the District with the same level of prior achievement.

GETTING TO SCHOOL

 32, 92, W4, W6, W8, W3, 34

WHAT YOU CAN DO

Families play an essential role in supporting student success.

Talk to your child about school. Your opinion and interest matter to your child. Ask your child about one thing he or she learned at school, and keep asking every day!

Talk to your child's teacher(s). Teachers and parents are on the same team. Ask teacher(s) about their expectations and goals for your child, and share your own. Brainstorm ways you can help your child at home to supplement learning at school.

Stay up-to-date and informed about what's happening at school. Pay attention to report cards, attendance, data, and any updates or newsletters coming home from school. If you have

any questions, don't hesitate to ask the teachers, principal, or staff. Find out what leadership opportunities are available, such as in parent organizations.

Volunteer at school. Volunteers are key to helping students succeed. Many schools need volunteers who can work directly with students on reading and math, but volunteers also can provide support in classrooms, the main office or the library. For more information, contact the school's main office to determine specific needs or visit www.dcps.dc.gov/ **DCPS/volunteer** for details about the volunteer clearance process.

WHERE CAN I FIND INFORMATION ON OTHER SCHOOLS?

View scorecards of every DCPS school at: www.dcps.dc.gov/ **profiles**. You can search for DCPS schools based on the information that you care about, and you can also compare schools side by side.
