

Dear Parent or Guardian,

You are the first teacher and most important partner in your child’s education. As a result, you need high-quality information on the performance of DCPS schools and the District overall. Inside, you’ll find important facts related to **student performance, family and community engagement, safety, facilities, and more.**

Taken together, I believe these data can help you make the best, most informed decisions possible related to your child’s education.

While the data on this scorecard provide you with the facts on the progress of this school, the best way to gauge a school’s quality is to get involved. Please take a look at the back page for ideas on engaging with your school community.

You can compare schools’ programs and performance online at www.dcps.dc.gov/profiles.

It is my hope that you use this information to hold principals, school staff, and my office accountable for continuing to improve the quality of education available to your family.

Sincerely,

Kaya Henderson

At Langdon Elementary School, we serve students in preschool through 5th grade in a learning environment that promotes the acquisition of valuable knowledge and skills and serves as a foundation for each student to progress successfully through all educational levels. Our curriculum consists of a traditional course of study with a focus on science, technology, engineering, arts, and math (STEAM), which makes education and careers in the sciences and the arts more accessible for our students. We foster an ongoing exchange of ideas and resources for our students, parents and educators to achieve our goals.

ELEMENTARY AND SECONDARY EDUCATION ACT CLASSIFICATION

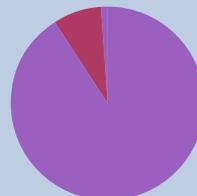

Priority schools need intense support to address overall low student performance, a graduation rate at or below 60% for two consecutive years, or for being previously designated a SIG school. Priority schools must develop an intervention plan that improves all students and report twice a year on meeting planned milestones.

STUDENT PERFORMANCE

Results of annual, standardized assessments don't describe the full school experience, but they do provide the most accurate and reliable signal of student performance. Every DCPS school should demonstrate progress in the core areas of math and reading, as well as cultivate students and faculty focused on improving performance through outstanding teaching and learning.

GETTING TO SCHOOL

WHAT YOU CAN DO

Families play an essential role in supporting student success.

Talk to your child about school. Your opinion and interest matter to your child. Ask your child about one thing he or she learned at school, and keep asking every day!

Talk to your child's teacher(s). Teachers and parents are on the same team. Ask teacher(s) about their expectations and goals for your child, and share your own. Brainstorm ways you can help your child at home to supplement learning at school.

Stay up-to-date and informed about what's happening at school. Pay attention to report cards, attendance, data, and any updates or newsletters coming home from school. If you have

any questions, don't hesitate to ask the teachers, principal, or staff. Find out what leadership opportunities are available, such as in parent organizations.

Volunteer at school. Volunteers are key to helping students succeed. Many schools need volunteers who can work directly with students on reading and math, but volunteers also can provide support in classrooms, the main office or the library. For more information, contact the school's main office to determine specific needs or visit www.dcps.dc.gov/dcps/volunteer for details about the volunteer clearance process.

WHERE CAN I FIND INFORMATION ON OTHER SCHOOLS?

View scorecards of every DCPS school at: www.dcps.dc.gov/profiles. You can search for DCPS schools based on the information that you care about, and you can also compare schools side by side.
