

Dear Parent or Guardian,

You are the first teacher and most important partner in your child's education. As a result, you need high-quality information on the performance of DCPS schools and the District overall. This scorecard provides important facts related to student performance, school facilities, and the academic and extracurricular opportunities available at this school. Taken together, I believe these data can help you make the best, most informed decisions possible related to your child's education.

While the data on this scorecard objectively illustrate the progress of this school, the best way to gauge a school's quality is to get involved. Be sure to review the back page of this document for ideas on engaging with your school community, such as volunteering or attending parent-teacher conferences. You can also compare schools' programs and performance online at www.dcps.dc.gov/profiles.

It's my hope that you use this information to hold principals, school staff and my office accountable for continuing to improve the quality of education available to your family.

Sincerely,

Kaya Henderson

The Academies at Anacostia High School underwent academic restructuring in 2009-2010 that resulted in the creation of four

distinct learning academies, a thriving online and accelerated learning program and additional CTE programs. These programs provide students personalized, comprehensive instruction and greater individual support. Each academy has its own administrator, counselor, teachers and dean of students. All Academies at Anacostia students have the opportunity to enroll in one of the following career pathways: Certified Nursing Assistant (CNA), Emergency Medical Technician (EMT), Homeland Security and Law Enforcement, or Graphic Design. Students have taken advantage of this academic turnaround and several have been awarded a record number of DC Achievers and Gates Millennium Scholarships during the past three years. On August 27, 2012, students moved into a completely modernized state of the art building equipped and updated with science and computer labs and a media center.

Priority — Priority schools need intense support to address overall low student performance, a graduation rate at or below 60% for two consecutive years, or for being previously designated a SIG school. Priority schools must develop an intervention plan that improves all students and report twice a year on meeting planned milestones.

STUDENT PERFORMANCE

Results of annual, standardized assessments don't describe the full school experience, but they do provide the most accurate and reliable signal of student performance. Every DCPS school should demonstrate progress in the core areas of math and reading, as well as cultivate students and faculty focused on improving performance through outstanding teaching and learning.

		0	100	WHAT DOES THIS MEAN?	
Student math performance	2011	52%	38%	9%	The percentage of students achieving at each proficiency level on the District of Columbia's Comprehensive Assessment System (DC CAS or DC CAS Alt).
	2012	47%	41%	12%	
	District Average	20%	34%	33%

College enrollment	2010	30%			The percentage of students graduating in June or August that are registered at a college or university the fall following their high school graduation. Data availability lags by one year, meaning results for 2011 are based on students graduating high school in summer 2010.
2011	29%			▲ 38%	
Advanced Placement performance	2011	5%			The percentage of students participating in an Advanced Placement examination and scoring 3, 4 or 5. These scores generally enable students to receive college credit.
2012	6%			▲ 29%	

STUDENT PROGRESS

Compared to student performance, which signals the share of students achieving at various levels, student progress is a measure of how much students grow from year to year. While some schools may have relatively few students meeting or exceeding state standards, it is important to gauge the extent to which those schools help students catch up.

		0	100	WHAT DOES THIS MEAN?	
First-time 9th grade completion	2011	40%			The percentage of first-time 9th grade students who earned enough credits to be promoted to 10th grade and are on track for graduation.
2012	39%			▲ 62%	
Student growth in math	2011	30%			This score describes the percentage of students the median (middle) student outperforms who started with a similar level of prior achievement on the District of Columbia's Comprehensive Assessment System (DC CAS or DC CAS Alt). For example, a score of 70 means that this school's median student outperformed more than 70 percent of students in the District with the same level of prior achievement.
2012	33%			▲ 46%	
Student growth in reading	2011	29%			
2012	34%			▲ 47%

WHAT YOU CAN DO

Parents and community members play an important role in ensuring that every child, in every classroom across the district, receives the high-quality education he or she deserves.

Volunteer at school. Volunteers are key to helping students succeed. Many schools need volunteers who can work directly with students on reading and math, but volunteers also can provide support in classrooms, the office and the library, as well as help plan and staff events, write grants, and much more. For more information, check with the principal or visit www.dcps.dc.gov/DCPS/volunteer.

Join the school's parent organization. Parent organizations are an important part of every school community. They provide ways to support students through community events, fundraising and other activities. Joining a parent organization helps parents meet other parents who are engaged in their child's education. For more information, contact the school.

Attend parent-teacher conferences. Stay in touch with your child's teachers and ask that they be in touch with you. Ask your child's teachers about

what kind of classroom behavior they expect and how they reward positive behavior. Ask what your child should be learning, how well he or she is doing, and what you can do to help. Parent-teacher conferences will be held at school on Feb. 25, 2013, and June 3, 2013.

Work with or run for the school advisory board. This group advises the principal on the comprehensive school plan — including specific programs and activities that strengthen student performance, create safe and effective schools, and involve parents and families. For more information, check with the principal.

Talk to your child about school. Your opinion matters to your child. Ask your child about one thing he or she learned at school, and keep asking every day! For more information, visit www.dcps.dc.gov/DCPS/studentsuccess.
